

Appl. No. 10/775,625  
Amdt. Dated July 6, 2004  
Rcply to Office action of June 16, 2004

**Remarks**

In the specification, paragraph [06] has been amended to correct the functioning of the circuit. Having the correct named Reed Switch (normally open) will allow for proper functioning of the circuit.

Claims [a-e] shall remain in place, with the correction and renamed open Reed Switch magnet inserted.

The attached drawing of Fig. 5 is to allow the circuit better and more efficient usage of its battery source. This will allow for a longer life of the battery and circuit as a whole.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully Submitted,

By

**Amendments to the Drawings:**

The attached sheet includes changes to Fig. 5. This sheet, which includes Fig. 1-6, does not replace Fig. 1,2,3,4, & 6. Only Fig. 5 is to be replaced by the new drawing.

Attachment: Replacement Sheet for Fig. 5
